money and unfortunately very often people get "fake" bills or large bills that they don't really owe the school yet and it causes a panic every time that it happens if you don't have the money right away to pay you are treated very badly so obviously there is room for improvement

Speak your mind when you have a different opinion than your professor. This is mostly (in my experience) in relation to political opinions. I find a few professors who feel very strongly about their political views demonize those who think differently. I have only experienced this from professors who are strongly left leaning. While I understand everyone has different views and this may result in clashing opinions occasionally, at times I feel if I spoke against their opinions if it came up in class discussion my grade would suffer as a result.

I Hate Daemen

I am very happy that I chose to receive my education at Daemen.

Being an international student, it is hard to find people like me. I feel like people have nothing to talk of than Daemen itself. There are more things to talk about to get to know someone than superficial stuff
